

All Radio Users on the UCA Network

Are you contemplating purchases of radio equipment to use on the new network?

You're Invited!

What:

Product Information from two of the dominant end radio user equipment vendors:

Motorola and L3Harris

These two vendors will explain their 5 most important points about their radio equipment on the new network to be launched in 2023-24.

Why:

To Inform decision makers who are contemplating radio user equipment purchases. It is important to know the difference between radio feature functions prior to purchase.

When and Where:
